CAREER OBJECTIVE

I am seeking an entry-level position and an job opportunity in your organization to prove my skills, gain experience and start my career in a company where I can contribute my ideas and grow towards a successful career.

EDUCATION

- Technical Diploma in Computer Engineering with a specialization in Software Engineering from Damascus University. (2022)

COURSES & TRAININGS

- 4 months training course at the beginning of my studies in web development techniques.
- International Computer Driving Licence (ICDL).
- Fundamentals of Digital Markiting from Google.
- HTML, CSS and Javascript for Web Developers from Coursera.
- React.JS course from Udemy.

EXPERIENCES

- Sales supervisor & Manager (2015 - 2019)

I worked as a manager and sales supervisor at Al Rayan library, where I sell and distribute books and stationery for schools, as well as provide printing services, photocopying documents, personal photos and do all office work.

- Data Entry (2020)

I worked during my studies as a data entry at Al-Shaal Company where I was responsible for managing the inserted data and writing weekly and monthly reports about it.

PROJECTS

- Have built a responsive website as a graduation project to manage the college and archive and store its data in order to help students and facilitate their access to the information they need such as announcements, subjects, exam results. This project also included the ability to communicate with the college administration.

<https://tcc-daraa.42web.io>

- YouTube channel called (N - Designs) which includes several graphic designs using web languages.
